SUMMARY

A determined MERN stack developer with over **1.5 years of hands-on experience**, efficiently developing websites. I have strong foundations in **both frontend and backend** technologies, including **MERN Stack, Next JS, SQL and NoSQL databases** with strong focus on creating seamless user experiences. With my experience, I'm committed to deliver quality code and constantly learning to keep up with the latest trends in the tech world.

EDUCATION

BS Computer Science:

[Gomal University Dera Ismail Khan](#)

06/2021 - 06/2025 D-I-Khan, Pakistan

- BS Degree: Computer Science,
- Completed in June 2025
- Gomal University Dera Ismail Khan, Pakistan

EXPERIENCE

EAST & WEST WEB DEVELOPMENT AGENCY:

[Paharpur, Dera Ismail Khan](#)

07/2023 – 09/2024

As a Full-Stack Developer at a fast-paced startup, I built and deployed scalable web applications using Next.js, Tailwind CSS, MySQL, PostgreSQL, and the MERN stack. I led end-to-end development and collaborated in an agile team to deliver secure, high-performance solutions under tight deadlines.

CodeClause Internship:

[Remote, India](#)

01/2023 – 03/2023

A MERN Stack development internship where I developed 3 projects: 1 beginner level and 2 Intermediate level.

DevelopersHub Corporation© Internship:

[Remote, Pakistan](#)

09/2022 – 11/2022

A MERN Stack development internship where I worked on an E-commerce platform.

Objective (Looking For)

Aspiring MERN Stack Developer seeking a junior MERN Stack developer role so that I can contribute to live projects and grow my full-stack skills.

SKILLS

MERN

Tailwind CSS

JavaScript

MySQL

Next JS

Git & GitHub

PostgreSQL

Vercel & Netlify

Restful APIs

AWS

TypeScript

Ui Libraries

PROJECTS

Attendance Portal

10/2024 - 10/2024

The Attendance Portal is a full-stack Next.js and MySQL project for efficient attendance management. It features user and admin panels with functionality for marking attendance, managing leave requests and approvals, grading, and profile updates.

Ecommerce Website

09/2024 - 10/2024

This e-commerce website, built with Next.js, uses MySQL for data management, Cloudinary for image storage, and Stripe for secure payments. It includes user authentication, a responsive design, and an admin panel for managing products.

- <https://vercel.live/link/ecommerce-eightmocha.vercel.app>

TourMate (AI Agentic website)

03/2025 - 05/2025

An AI-powered travel companion that provides personalized trip recommendations using OpenAI, Google Maps, and Wikimedia APIs for tailored suggestions, optimal routes, and relevant images.

- <https://tour-mate-bay.vercel.app>

Portfolio

07/2024 - 08/2024

This portfolio project showcases my web development skills, built using modern web technologies. It includes a ReactJS based frontend that displays portfolio content and a NodeJS based backend that manages server side operations.
